Subject: RE: concerns

Response to SAC Chair Letter

Thank you for your letter dated September 14 / 2018 expressing concerns on behalf of the SAC at J.W. MacLeod / Fleming Tower Elementary around the impact of increased enrollment at the school.

The concerns have been brought forward to the HRCE Senior Staff. As soon as there is any new information to share on updates to the process of school reviews this information will be shared with the school principal Emily Quigley, and she will in turn share with the SAC. HRCE has welcomed and included SAC voices in all school reviews. It is anticipated that the SAC will continue to serve a role in any discussions around the school review process.

Thanks to the SAC for their continued support of the principal and the school. The actions taken to address enrollment growth in the area for the 2018 2019 school year have been successfully. As of the date of this email all classes at J.W. MacLeod / Fleming Tower Elementary School meet the class cap guidelines.

The School Admin Supervisor of the school is in constant conversation with the principal, Emily Quigley to address concerns throughout the school year. HRCE is actively monitoring enrollment growth and decline in all schools across our region.

Please thank the SAC members for their ongoing work to ensure each student has the opportunity to meet with success. Parents/guardians and community members play an integral role in that success.

Greg
